## RAILROAD WRECK!

**Two Passenger Coaches Telescoped on the Chicago and Atlantic and Twenty-Five Killed.**

CHICAGO, Oct. 11.—An accident occurred on the Chicago and Atlantic railway last night near Koutts, Ind., in which it is reported that some fifteen people were killed. The fast freight train ran into the rear end of a passenger train, telescoping two coaches. It is not yet known in what direction the passenger train was going. At the general offices of the Chicago and Atlantic railway here no information on the subject can be obtained.

LATER.

CHICAGO, Oct. 11.—Reports here now are to the effect that twenty-five people were killed and a large number injured in the wreck. The catastrophe occurred at Koutts, a small station, fifty-five miles from Chicago. The fated train was a passenger and express from the east, due at Chicago this morning. The relief expedition was quickly and secretly organized by the railroad officials here and dispatched to the scene and other help was to be hurried forward as soon as possible. Two passenger trains arrived in Chicago early in the morning from the east and it is not known which one was involved, as the officials of the company refuse to give the slightest scrap of information. As near as can be judged the horror occured between 5 and 6 this morning.

ANOTHER ACCOUNT.

HAMMOND, Ind., Oct. 11.—The passenger train eastbound on the Chicago and Atlantic railroad, leaning Hammond at 8:15 last night broke down near Koutts station. The engine started ahead, leaving the train and stopped for water at the state switch. The engine got on the centre and could not get back to the train. A stock train, following, running on special time, crashed into the sleeper, telescoping it and four coaches. So far fourteen bodies have been taken from the wreck. Doctor Wright, from Huntington, Ind., is the only passenger identified. The rest are burned beyond recognition. Twenty-five or thirty are wounded. The engineer and fireman of the stock train are badly hurt, and not expected to live.

THE LATEST.

CHICAGO, Oct. 11.—W. A. Duncan, of Syracuse, N. Y., arrived from the scene of the accident. He saw the wreck. Eighteen or twenty is the number at which he places those that are known to have been killed. A number of these were burned before his eyes. There was a doctor on the train who lost his wife and daughter in the burning wreck. He could do absolutely nothing for them and saw them burn to death. The rear coaches of the passenger train were smashed and telescoped, so that three occupied less space than one. Live coals from the freight engine ignited the debris, under which the wounded and dead were lying. Some were mercifully killed by the first shock, but many were slowly burned to death.

No one in the Pullman sleeper was hurt.

Another special to the *Journal* from North Judson, Ind., says: "An accommodation with one baggage car and two coaches and one sleeper had stopped at the water tank for water about one mile west of Koutts and the freight train following crashed into the sleeper, telescoping and burning up the entire train.

### The Bridal Season.

WASHINGTON, Oct. 11.—The bridal season has apparently set in all over the country, and the Washington hotels are reaping the results. One hotel here claims to have twenty-five pairs of wedding tourists at the present moment. But this hotel has had twenty-seven brides at a time.

### Stole Two Mules.

LOGANSPORT, Ind., Oct. 11.—Deputy Sheriff J. B. Stanley, at a late hour last night arrested James Black, charged with the larceny of two valuable mules at Marion. Black is connected with a side show traveling with Forepaugh, and last fall was a candidate for sheriff in Madison county, this state.

### Killed While Stealing a Ride.

NEWARK, O., Oct. 11.—The body of John Eagan, aged twenty-one, of Mansfield, was found on top of a baggage car on the Baltimore and Ohio road, on its arrival here yesterday. His home was in Mansfield, and it is the supposition that he got on the top of the car to steal a ride and struck his head against a bridge, as the whole top was completely crushed in.

### Blinkey Morgan.

CLEVELAND, Oct. 11.—The case against "Blinkey Morgan" charged with the murder of Detective Hulligan on the railroad train in February last was called at Revenna, Ohio, yesterday, but was passed until Thursday at the request of Morgan's council.

The following is the experience of a Baltimore butcher—I have suffered with bad headaches for years and have tried many remedies without obtaining relief. I was advised to give Salvation Oil a trial and it has entirely cured me.

## AT ST. PAUL.

**The President and Mrs. Cleveland are Pleasantly Greeted at Minnesota's Capital.**

ST. PAUL, Oct. 11.—At 7:45 last evening the presidential party took carriages and were driven about the illuminated and crowded streets down to Third street, where the toboggan and snowshoe clubs were drawn up in line on either side of the street and backed up by the general crowd, and arched over by myriad spans of colored lights, which made a triumphal way up which the carriages dashed amid continuous cheering. At the Bridge square the party mounted the reviewing stand, and the procession passed before them. Returning to the hotel, a general reception to the public began.

ST. PAUL, Minn., Oct. 11.—The presidental party breakfasted about 9 o'clock, and at 9:45 o'clock took the carriages for a drive around the city. Every where along the route were crowds of people and every where the President and Mrs. Cleveland were met with plesant demonstrations of respect and interest.

At the residence of Mayor Smith the president, Mrs. Cleveland and Governor McGill stopped and partook of some light refreshments. Mrs. Cleveland remained at Mayor Smith's residence after the drive, while the president was taken to the Minnesota club, where the members of the club were presented and a lunch served. Mrs. Cleveland was driven to the station by Mrs. Smith, meeting the president there, and at 12:30 they started for Minneapolis, amid the hearty farewell cheers of the crowd.

### BANDED TOGETHER.

**Nine Young Men of Elmira, N. Y., Arrested for Burglary and Arson.**

ELMIRA, N. Y., Oct. 11.—Nine young men were arrested this morning who had banded together for the purpose of burlary and arson. They had an ironclad agreement, which called for the death of any member divulging any of the association's secrets. The first youth arrested made a confession, implicating his associates. A large amount of the stolen property has been recovered and the police say the evidence against the young men is conclusive.

ST. LOUIS, Oct. 11.—A special from Matamoras, Mexico, says that General Vila received the following telegram on Saturday:

SAN FERNANDO, Oct. 8.—I have the honor to inform you that yesterday there was a combat with a strong party of smugglers at a point known as Hursachosa, near rancho Vie-Jo. There were captured eighteen large bales of goods and two small ones, eight horses, a mule and three carbines. Three of the smugglers were killed, among them the well known bandit, Pedro Sales, of the Gloria rancho. Two of my men were wounded.

(Signed) F. T. Ames, Lieutenant.

### THE FEEDER CANAL.

**Judge McBride Alters His Injunction So that the City Can Acquire a Safe Water Supply.**

Yesterday Judge John Morris, of this city, went to Albion and secured from Judge Wes. McBride a modification of his recent injunction against the city acquiring the feeder canal by condemnation.

The order is in writing and it now alone enjoins the city from purchasing or in any way securing the forty-five acre tract of land at the feeder dam.

This leaves the council free to proceed with the condemnation of the feeder canal for securing a reliable and never-failing source of water supply, only that the preliminary work of serving papers and issuing notices on the parties interested must be repeated by the council who will also be required to pass new resolutions of condemnation omitting from them the forty-five acre tract of land included in the former or first resolution and objected to by Judge McBride.

This leaves the city in a position to at last secure for the people a pure and inexhaustible water supply and to control the entire flow in the St. Joe river and feeder canal with its power, water rights and franchises at a price to be fixed by the condemnation commissioners.

### A Natural Gas Gusher.

WABASH, Ind., Oct. 11.—The natural gas well recently drilled at Amboy, eighteen miles southwest of this place, has been developed into a gusher by sinking the drill three feet. For some time past the well has at frequent intervals vomited up vast quantities of stone and salt water, shutting off the gas flow. There is now a steady flow of gas, and the pressure is very strong. Gas from this well will be piped to Peru, twelve miles distant. Preparation are being made for the formation of a pipe line company.

### The Ladies Saved the Church.

TOLONO, Ill., Oct. 11.—The Methodist Episcopal church at Monticello has long been struggling under a heavy load of debt. Last fall the church building and lot were advertised to be sold on foreclosure, but a year's extension was granted. The time being now about to expire, the ladies of the church heroically took the matter entirely into their own hands and determined to raise the incumbrance. They made a vigorous canvass for the funds, and succeeded so well that it was officially announced that the necessary $2,100 had been secured and church saved to the congregation.

### Robbed the Indians.

TUCSON, Arizona, Oct. 11—The United States grand jury, in session here, has discovered that organized cattle thieves have been stealing cattle from the Indians on the San Carlos reservation during the past year. Several very prominent citizens are implicated. The white men who stole the cattle changed the Indians brands into their own, which had been purposely made to closely resemble them. It is now thought much of the Indian troubles were due to this cattle stealing.

### Yellow Fever.

WASHINGTON, Oct. 11.—Surgeon General Hamilton has received a telegram from Dr. Wall, president of the board of health of Tampa, Fla., saying that the fever there is unquestionably yellow fever, though the popular sentiment of those remaining here is against him. There was one death yesterday. It is all over the place and the city authorities are doing nothing.

### THE CRITERIONS.

**The Opera Company Goes to Pieces at Toledo—Mr. Aborn Skips Out.**

The Criterion opera company, which recently held forth at the Academy, closed its Toledo engagement disastrously.

The public drew a sigh of relief when the curtain was rung down for the last time Saturday night, and congratulated themselves that the company would soon be without the precincts of that city.

But not so. They will stay right with us. Their baggage is safely stowed away in the Hotel Hamilton, and it will require more money than the company can show, to release it.

Saturday night Milton Aborn, one of the proprietors of the troupe, walked up to the counter in the Hamilton, and said to Mr. Martin Carter, the clerk, "Tell Walters that I'm going to Sandusky and will be back at 2 p. m." (Walters is the manager.) At the time Abern carried a small hand satchel. That grip contained the company's money, and Aborn's whereabouts are unknown to the other members of the troupe. The remaining members of the company then appeared in traveling attire, and requested their baggage. Mr. Carter, however, refused to release it, none of the bills having been paid. Then Lew Walters, the manager, decided to leave the city, but he was placed under arrest. J. B. Bully, the musical director, is locked up for destroying property at the theatre, and the troupe will go to pieces.

# TELLING THE NEWS

**As it Floats Around in the Air at the Railroads and Manufacturing Centers of the City.**

The Wabash road is making improvements in the freight depot at Logansport.

The Olds wheel works are building a new smoke stack that will be eighty feet high.

The new stationary engine for the Pittsburg machine shops is being placed in position.

Horace Granger, of the Wabash railroad offices, has been on the sick list for a few days.

Thomas Gleen, the well-known Pittsburg conductor, will spend this winter in California.

John Swaidner has accepted a position as telegraph operator on the B. and O. railroad, near Chicago.

James Bang, a trainman on the Pittsburg road, is rejoicing over the advent of a new boy at his house last night.

Charles Colerick, of the Pennsylvania company offices in this city, left yesterday for Columbus to attend the wedding of a friend.

Hugo Corman, formerly an engineer on the Pittsburg, is now pulling the throttle of a locomotive that runs on a railroad in Minnesota.

Theodore Weichman, of the Bass works, who mashed his finger while at work on Saturday, is kept from duty on account of his injuries.

The private car of President Hughart, of the Grand Rapids, went east on the Pittsburg last night with that distinguished official on board.

An excursion train passed through the city last night on the Nickel Plate at midnight with a large number of excursionists from Cleveland to Chicago.

Assistant Foreman P. J. Scheid and Shop Clerk Ed Challenger, of the Pittsburg shops, witnessed the Forepaugh show come into town this morning on the Wabash.

W. H. Magley, of the electric works, went to Black Rock, Ark., today to superintend the building of an electric plant that the works here are putting in that city.

Herman Miller, a bricklayer living on Hanna street, is laying brick at a lively rate to day and singing hapily as he works. A little girl baby arrived at his house last night.

Forepaugh's circus and the Louisiana lottery came just in time to reap the benefits of several big pay days in the city yesterday among the manufacturing establishments.

Large quantities of coal are now passing through the city on the Nickel Plate and the Pittsburg, and as a relief to the monotonous freight, this morning a car load of cabbage went west on the Pittsburg.

The L. N. A. and C. railroad shops that were recently burned down at Michigan City will not be rebuilt there, but will be built at Monon. As the shops only employ about fifteen men all told, their removal from Michigan City will make but little difference anyway.

A number of the employes in the Pittsburg car shops were off duty yesterday afternoon for the purpose of attending the funeral of Frederick Busching, who was for a long time in the employ of the Pennsylvania company. They contributed several fine floral offerings.

A number of the men in the establishments that paid off yesterday are taking a holiday to-day. This is always the case after a pay day. One of the foremen said to our reporter this morning that he was always troubled in keeping some of his men at work for a week after pay day. They get their money and are then bound to have a good time until it is all gone, when they go to work again and remain sober until their next month's earnings are drawn.

The Forepaugh show came in on the Wabash this morning and unloaded at the Lafayette street crossing, near the Olds works. The employes of that establishment had their heads out of the windows for most of the time during the unloading scene, and in spite of the vigorous efforts of Superintendent Sallot, who was on guard with a club, assisted by Prof. Wolsey and Thomas Cragg, they kept on looking until the elephants had taken their departure for the show grounds.

How does this hit you? All wool red underwear Sam, Pete & Max are selling at 50 cts. Strictly one price the rule in every case. eod&w tf

I have not used all of one bottle yet. I suffered from catarrah for twelve years experiencing the nauseating dropping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in the Boston *Budget*. I procured a bottle, and since the first days' use have had no more bleeding—the soreness is entirely gone.—D. G. Davidson, with the Boston *Budget*, formerly with Boston *Journal*.

# DR. FRUTH, OF NEW YORK,

The Celebrated German Specialist in Chronic Diseases and Diseases of the Eye and Ear, also Surgeon in Charge of the France Medical and Surgical Institute, of Columbus, O., by request of many friends and patients, will make a return visit to Fort Wayne, Ind., Wednesday and Thursday, October 19 and 20. Consultation and examination free and confiddential at his Parlors at the Robinson House from 9 a. m. to 9 p. m. Two days only.

When it is known that Dr. Fruth is stopping at a place, crowds gather to consult him, and it is not to be wondered at when it is remembered that in diagnosing a disease he never asks questions, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. The doctor's diagnostic powers have created wonder throughout the country.

**THE FRANCE MEDICAL & SURGICAL INSTITUTE.**

INCORPORATED 1886. CAPITAL, $300,000.00.

TELEPHONE 862. No. 30 WEST GAY STREET, COLUMBUS, O. TELEPHONE 862.

Established for the Treatment of all forms of CHRONIC DISEASES, and DISEASES of the EYE and EAR. Also, PRIVATE DISEASES.

D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, Surgeon in Charge.

Dr. FRANCE, of New York, the well known Specialist in Chronic Diseases and Diseases of the Eye and Ear, Principal.

DR. FRANCE, of New York, the well known and successful Specialist in Chronic Diseases and Diseases of the Eye and Ear, on account of his large practice in Ohio, has associated himself with D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, who has resigned his position in the Provident Medical Dispensary to take charge of the *France Medical Institute*, where all forms of *Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific Principles.*

**A FAIR PROPOSITION.**—Intelligent people, the world over, when the reason is appealed to and prejudice is laid aside, can always be relied upon to reach a correct conclusion in any matter that may be presented to them. It is in this way Dr. France, the founder of the France Medical Institute, at No. 30 West Gay street, desires to meet the public, and discuss the manner in which he undertakes to cure chronic diseases. He places his propositions in this wise: Are you accustomed to think and act for yourself? If so, then do not heed the counsel of skeptical and prejudiced friends, or jealous physicians, but listen to what we have to say. You perhaps know nothing of us or our system of treatment, or of the business methods we employ. You may imagine, but you know nothing of our facilities and advantages of perfecting cures in cases beyond the reach or aid of the general practitioner. Knowing nothing, then, of all these advantages, you still know as much as the would-be friend or physician, who never loses an opportunity to traduce and misrepresent us, and prejudice the afflicted against us. We wish to add further that we are responsible and invite you to come and visit our institution; and if you find on investigation that we have mistated or misrepresented in any particular, our institution, our advantages or our success in curing Chronic Diseases, we will gladly bear the expense of your trip. We court honest, sincere investigation, and are glad and anxious to show interested people what we can do and are doing for suffering humanity. Can a proposition be plainer? Can an offer be more fair and business-like? If, therefore, you are afflicted and are seeking relief, come where genuine ability is a ruling feature, where success is our watchword and the alleviation of human suffering our mission.

They adopt the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, viz: They carefully note the symptoms of the patient, ascertain the conditions of the internal organs, examine Eye, Ear and Throat by the most recent and approved instruments and methods, all of which they carefully record in their register for future reference. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and, knowing the changes, they check them with specific remedies, and place the patient on the high road to recovery. When sick people consult them they readily tell them whether they can cure or help them, or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will convince the most skeptical. By an examination they will convince any one of the nature and extent of disease, amount of danger to life, and chance of a perfect cure. Believing that science is truth, and "truth is mighty and will prevail" when known, and knowing that disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of Chronic Diseases. The astounding success and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of diseases by natural remedies. Let those given up by others call for examination. They have successfully treated the following diseases since their arrival in this State; Eye and Ear Diseases, Chronic Diarrhœa, Chronic Inflammation of the Womb, Chronic Inflammation of the Bladder, Painful or Irregular Menstruation, Fever Sores and Ulcers, Incontinence of Urine, Tape Worms, Crooked Limbs and Enlarged Joints, Spinal Curvatures, Club Foot, Hip Joint Diseases, White Swelling, Discharging Abcesses, Sterility or Barrenness, Nervous and General Debility, Prostration and Impotency, Disease of the Kidneys and Bladder, Leucorrhea or Whites, Blotches and Pimples, Skin Diseases, Dyspepsia, Constipation, Dropsy, Cancer, Epileptic Fits, Erysipelas, Gravel, Goitre, Gleet, Gonorrhœa, Hydrocele, Heart Disease, Liver Disease, Headache, Piles, Hysteria, Syphillis, St. Vitus Dance, Chronic Dysentery, Enlarged Tonsils, Fever and Ague, Fistula in Ano, Hernia or Rupture, Ovarian Tumors, Paralysis or Palsy, Prolapsus Uteri, Bronchitis, Asthma, Catarrh, Scrofula, Consumption, Chronic Cough, Female Weakness, Spermatorrhœa, Rheumatism, etc.

**CURING OF PILES GUARANTEED.**—Will give $1,000 for any case of failure. No money required of responsible parties.

**YOUNG MEN**—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

**DR. FRANCE**—After years of experience, has discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

**TO MIDDLE-AGED MEN.**—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits a ropy sediment will be found, and sometimes small particles of albumen will appear, or the color will be a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

**PRIVATE DISEASES**—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. No risks incurred. Correspondence promptly answered, and medicines sent free from observation to all parts of the United States.

**DISEASES OF WOMEN.**—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialist, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

**EPILEPSY, OR FITS**—Positively cured by a new and never-failing method.

*To Whom it May Concern:* We, the undersigned, do cheerfully and conscientiously recommend Drs. France and Fruth as gentlemen of rare professional ability, ripe in judgment, humane to a fault, considerate in price, and enthusiastic for the relief of their fellow men, and we therefore urge the afflicted to avail themselves of their superior skill.

# That's So

Relief is certain for the despondent feelings of the dyspeptic, the constipated habit of the sedentary, the headaches of the nervous and bilious, by the simple use of Simmons Liver Regulator,—easy to take, not nauseating or disgusting, not more bitter than a glass of beer and far more grateful. It is no intoxicating beverage, but it tones up the system, settles the stomach, assists digestion, regulates the bowels, and stimulates the Liver. Take it once and and you will discard all other medicines.

"I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent that Simmons Liver Regulator has. I would advise all who are similarly affected to give it a trial as it seems the only thing that never fails to relieve." P. M. JANNEY, Minneapolis, Minn.

The certainty with which this remedy acts has astonished the Medical Profession and secured for itself unbounded praise. Its virtues consist in being so gentle a cathartic, tonic and alterative, that in its operation it does not interrupt the usual duties of life, but acts so naturally that the system is not upset or afterwards constipated. It attacks all bilious disorders and sluggishness of the Liver; is harmless, and can be taken at any time without fear of injury.

"I have been a user of Simmons Liver Regulator for years, having made it my only family medicine. It is a sure, good and reliable medicine. My mother before me was very partial to it."—Rev. JAS. M. ROLLINS, Pastor M. E. Church, Fairfield, Va.

### Pretty Legends Connected with Trees.

Near an old German castle is a lime, which a boy, accused of killing his master, planted with its head in the earth, to attest his innocence if it grew and flourished. Two friends were attacked by robbers in a wood, and one of them was killed. The robbers having been put to flight by a flash of lightning, the surviving friend, found kneeling at the side of his dead companion, was condemned to death for his murder. On his way to execution he planted a stick, which he adjured to take root and grow if he was innocent; as, of course, it is proved that he was by the beautiful apple tree that the stick became. Somewhat similar is the account of the Luther elm near Worms. A bigoted old Catholic lady, planting a stick in the ground, declared her resolution not to accept the new faith till that dry stick became green. The fact that it did so proves the interest taken by trees in the preservation of orthodoxy, but it would seem that the elm tree takes a special interest in matters of this sort, for is not the elm tree the symbol of St. Zenobius, when the coffin of that saint was carried past it a dry elm tree suddenly burst into leaf?"

Another way by which trees revealed their inherent sympathy with humanity is by bleeding. Both Virgil and Ovid tell the story of Polydore, one of the Priam's sons, intrusted to the care of a king of Thrace, and by him killed after the taking of Troy; from his grave there grew a myrtle, which, when Eneas plucked its boughs, bled in a pure human fashion, much to that hero's dismay. The present writer himself has searched for an oak tree in a Surrey wood which was said to show a blood-red sap in memory of a murder committed in its vicinity. At all events, if a deed of blood had been committed near the spot the tree in question had forgotten all about it, for no blood issued from its wound, and a disbelief in bleeding trees had to add itself to many another negative conclusion.

The peculiarities, no less than the existence, of trees, admit of mythological explanation; and strangely absurd those explanations often are. Here, for instance, is one of the jagged form of the oak leaves, an explanation of the same order as that which traces the minute holes in the leaves of the St. John's wort to the needle with which the devil pricked it as a punishment for its devil-dispelling powers. The devil agreed with a man that he should have the latter's soul at the time when the oak leaves fell; but when he came to look at the oak in the autumn he found it still in leaf, nor did it part with its old leaves till the new ones began to sprout. In his rage and disappointment he scratched the leaves so vehemently that they have been in consequence jagged ever since. — *Gentleman's Magazine.*

# DR. MANVILLE,

THE EMINENT PHYSICIAN AND SPECIALIST

Lately of London, England.

## Has Opened Medical Office Parlors at 196 Calhoun St.,

## For One Month Only, Oct. 3 to Nov. 3.

The Doctor is a graduate of three different Medical Colleges, both European and American, as his Diplomas will show; and he has been highly honored by other Colleges and Universities as well.

His Reputation is International. He has practiced nearly a quarter of a century. He treats all diseases of the Eye and Ear, all Specific, Nervous, Chronic Diseases and Deformities, of men, women and children, and the Opium and Morphine habit. Dr. Manville diagnoses diseases by an entirely different method from that pursued by ordinary physicians and specialists. He never asks a patient his disease, but by a peculiar method reads and tells every disease, complication and symptom better than the patient can; and that without asking a question. It is

### TRULY ASTONISHING!

Even physicians wonder at it and take critical cases to him for a final decision. The great question with them is: How Does He Do It? The internal parts of a patient seem to be as clear and plain to him as the external, but just how he obtains such a marvelous knowledge of his patient's condition, no one seems to understand, or be able to describe. That he does it in every case, no one doubts. Some seem to thing that the Doctor is gifted with supernatural powers; that no ordinary man could give such remarkable descriptions of strangers as he does. Be that as it may, this curious feature of his practice alone, is bringing him thousands of grateful patients; many of whom declare that his wonderful diagnostic skill and power in performing cures is

### Positively Miraculous

The most skeptical are convinced and astonished.

Sufferers from Nervous Debility and Blood Diseases and complaints of either sex, requiring Special Treatment, cured in a few days or weeks, without interfering with their work.

### HUNDREDS OF MEN.

are afflicted with Seminal Weakness, Spermatorrhea, and Impotency, brought on by various causes, such as veneral excesses and diseases, occupations requiring a straining and stooping position, and especially the unnatural abuses of the sexual functions, the SOLITARY HABIT so often indulged in youth without knowing the terrible results.

Young man, Stop! Look this matter square in the face; think, consider what you are doing. Waste no time and money with ignorant or unskillful pretenders, who trifle with you month after month, treating SYMPTOMS only, with Bromide of Potassium compounds that impoverish your blood, deadens your nerves; stupefy your mind and relieve nothing—but your pocket book. Such poisonous drugging

### MAKES YOU WORSE.

We can prove by hundreds of cases on record that bromide mixtures so often given for fits and lost manhood, seldom, if ever, cure fits, but almost always DESTROY MANHOOD and RUIN the MIND. Bromide of Potassium and Gelseminum are the main remedies used. Given for seminal weakness &c., to control SYMPTOMS while you take them. They never touch the CAUSE or effect a CURE. The unhappy victim goes on from bad to worse, reaching at last the most deplorable and horrible condition of humanity imaginable: A Lost Mind—a helpless idiot or raving maniac; made so by the action of these poisons on the blood and brain, as well as by the disease. In fact, these remedies are worse even than the disease. Let Them Alone.

In all such cases we gurantee a speedy restoration to healthy, strong and vigorous manhood. Microscopical examinations of the urine made in all these cases. We make NO EXPERIMENTS and very few failures. We guarantee all curable cases.

Electric Medication and the NEW METHOD TREATMENT enables us to effect WONDERFUL CURES.

### DISEASES OF WOMEN.

Every maid, wife and mother who has dragged an aching back and head through weary years; deserves our utmost sympathy, and may depend on getting the most careful, skillful and successful medical treatment that can be given. Twenty years study and practice in diseases of women, both in Europe and America, has convinced me that eight out of ten American women suffer from some of the following complaints peculiar to the sex: Irregularity of the menses, too free, too scant, or painful, leucorrhea, (whites,) vaginitis, metritis, endometritis, ulcerations, displacements, falling of the womb, anteversion, retroversion, lateroversion, ante and retroflexions, producing constipation, or produced by it; uterine and ovarian tumors, fibroma and sarcoma cysts, cancers of the womb or its appendages, frequent or scanty urination, with burning, smarting or itching tenderness, soreness, bloating and backache, eruptions of the skin, pimples, blotches, brown spots, yellow spots, red spots, greasy, pasty, waxy, or chlorotic appearances, and discolorations of the skin, with blue or dark circles around the eyes. Nature is true: she displays her signs and signals the approach of the grim enemy of life, disease Look sharply into your mirrors: be not deceived, for these signs and symptoms mean weakness, nervousness, irritability, wakefulness, indigestion, headaches, forgetfullness, partial paralysis, sterrility, melancholly, hysteria, wasting, consumption, catalepsy, St. Vitus dance, fits, derangements, insanity and suicide. Many ladies, especially young ladies, are so timid and excessively modest that they hesitate and put off calling on a physician until they are past curing. Mothers should learn more of their daughter's ailments, banish from their minds a dread of examination, for ladies do not have to tell their complaints to Dr. Manville; no unpleasant questions are asked; no objectionable examinations are made; no painful local treatments are given. ### "Untold Agony from Catarrh."

Prof. W. HAUSNER, the famous mesmerist, of [redacted], N. Y., writes: "Some ten years ago I suffered untold agony from chronic nasal catarrh. My family physician gave me up as incurable and said I must die. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months, I was a well man, and the cure has been permanent."

### "Constantly Hawking and Spitting."

THOMAS J. RUSHING, Esq., *2902 Pine Street, St. Louis, Mo.,* writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

### Three Bottles Cure Catarrh.

ELI ROBBINS, *Runyan P. O., Columbia Co., Pa.,* says: "My daughter had catarrh when she was five years old, very badly. I saw Dr. Sage's Catarrh Remedy advertised, and procured a bottle for her, and soon saw that it helped her; a third bottle effected a permanent cure. She is now eighteen years old and sound and hearty."

### FOREPAUGH'S SHOW.

It Makes Its Bow to the People of Fort Wayne in Bad Weather.

The combined Frontier and Forepaugh shows pulled into the city over the Wabash road, this morning, at 7 o'clock. The aggregation was in two sections and came here from Logansport.

There was the customary crowd of curious boys and roustabouts near the circus train, and it was almost 10 o'clock before the horses, animals and paraphernalia were landed on the show grounds, below the jail.

At about noon the show appeared in processional order upon the streets. Delegations of Sioux, Comanche, Kionas and Pawnee Indians, in full war paint and feathers, rode upon their wiry ponies, preceded by scouts, trappers and plainsmen. Then came a representation of an emigrant train crossing the prairies, a genuine "prairie schooner," loaded with emigrants and their paraphernalia, and drawn by mules, forming a most realistic representation of frontier life, and the veritable old Deadwood coach—the identical one that was repeatedly attacked and robbed while on its way from the Black Hills to Denver, was in the parade, drawn by six horses and driven by an old-time driver of the Overland Mail company. A cowboy brass band, mounted, headed this detachment. Then followed all the circus celebrities mounted, and the great herd of elephants, the magnificent band chariot, drawn by sixteen superb horses, and a long line of massive dens, cages and tableau cars, with bands of music at stated intervals, together with the handsome performing horses and ponies, and many other novelties never before seen in any similar display.

This afternoon the tents of the circus were crowded, in spite of the chilly weather, and a great exhibition is in progress as we go to press.

To-night the performance will be repeated and, of course, everybody will look on the glories of the ring and frontier life.

Mr. Jesse Lehr, who is familiar to most of the citizens of Fort Wayne as the veteran merchant policeman, died this morning of strangulated hernia, at his home in the Ninth ward, after an illness of twenty-four hours duration. Mr. Lehr was sixty years of age and his wife and two daughters survive him. He was at one time a prominent plasterer and had big contracts when in the business. Of late years he has been a special police officer and everybody liked him. John Lehr, the city tax collector, is his brother. The funeral occurs Thursday morning at 10 o'clock from his home, No. 67 North Cass street. Rev. Dr. Moffat will officiate.

You may doubt it, but in fact, Sam, Pete & Max are selling a boy's heavy stylish and serviceable woolen suit for $2. Imperative law of the house is strictly one price to all. eod &wtf.

## RAILROAD WRECK!

Two Passenger Coaches Telescoped on the Chicago and Atlantic and Twenty-Five Killed.

CHICAGO, Oct. 11.—An accident occurred on the Chicago and Atlantic railway last night near Koutts, Ind., in which it is reported that some fifteen people were killed. The fast freight train ran into the rear end of a passenger train, telescoping two coaches. It is not yet known in what direction the passenger train was going. At the general offices of the Chicago and Atlantic railway here no information on the subject can be obtained.

LATER.

CHICAGO, Oct. 11.—Reports here now are to the effect that twenty-five people were killed and a large number injured in the wreck. The catastrophe occurred at Koutts, a small station, fifty-five miles from Chicago. The fated train was a passenger and express from the east, due at Chicago this morning. The relief expedition was quickly and secretly organized by the railroad officials here and dispatched to the scene and other help was to be hurried forward as soon as possible. Two passenger trains arrived in Chicago early in the morning from the east and it is not known which one was involved, as the officials of the company refuse to give the slightest scrap of information. As near as can be judged the horror occured between 5 and 6 this morning.

ANOTHER ACCOUNT.

HAMMOND, Ind., Oct. 11.—The passenger train eastbound on the Chicago and Atlantic railroad, leaning Hammond at 8:15 last night broke down near Koutts station. The engine started ahead, leaving the train and stopped for water at the state switch. The engine got on the centre and could not get back to the train. A stock train, following, running on special time, crashed into the sleeper, telescoping it and four coaches. So far fourteen bodies have been taken from the wreck. Doctor Wright, from Huntington, Ind., is the only passenger identified. The rest are burned beyond recognition. Twenty-five or thirty are wounded. The engineer and fireman of the stock train are badly hurt, and not expected to live.

THE LATEST.

CHICAGO, Oct. 11.—W. A. Duncan, of Syracuse, N. Y., arrived from the scene of the accident. He saw the wreck. Eighteen or twenty is the number at which he places those that are known to have been killed. A number of these were burned before his eyes. There was a doctor on the train who lost his wife and daughter in the burning wreck. He could do absolutely nothing for them and saw them burn to death. The rear coaches of the passenger train were smashed and telescoped, so that three occupied less space than one. Live coals from the freight engine ignited the debris, under which the wounded and dead were lying. Some were mercifully killed by the first shock, but many were slowly burned to death.

No one in the Pullman sleeper was hurt.

Another special to the *Journal* from North Judson, Ind., says: "An accommodation with one baggage car and two coaches and one sleeper had stopped at the water tank for water about one mile west of Koutts and the freight train following crashed into the sleeper, telescoping and burning up the entire train.

NEWARK, O., Oct. 11.—The body of John Eagan, aged twenty-one, of Mansfield, was found on top of a baggage car on the Baltimore and Ohio road, on its arrival here yesterday. The President and Mrs. Cleveland are Pleasantly Greeted at Minnesota's Capital.

ST. PAUL, Oct. 11.—At 7:45 last evening the presidential party took carriages and were driven about the illuminated and crowded streets down to Third street, where the toboggan and snowshoe clubs were drawn up in line on either side of the street and backed up by the general crowd, and arched over by myriad spans of colored lights, which made a triumphal way up which the carriages dashed amid continuous cheering. At the Bridge square the party mounted the reviewing stand, and the procession passed before them. Returning to the hotel, a general reception to the public began.

ST. PAUL, Minn., Oct. 11.—The presidental party breakfasted about 9 o'clock, and at 9:45 o'clock took the carriages for a drive around the city. Every where along the route were crowds of people and every where the President and Mrs. Cleveland were met with pleasant demonstrations of respect and interest.

At the residence of Mayor Smith the president, Mrs. Cleveland and Governor McGill stopped and partook of some light refreshments. Mrs. Cleveland remained at Mayor Smith's residence after the drive, while the president was taken to the Minnesota club, where the members of the club were presented and a lunch served. Mrs. Cleveland was driven to the station by Mrs. Smith, meeting the president there, and at 12:30 they started for Minneapolis, amid the hearty farewell cheers of the crowd.

SAN FERNANDO, Oct. 8.—I have the honor to inform you that yesterday there was a combat with a strong party of smugglers at a point known as Hurachoas, near rancho Vie-Jo. There were captured eighteen large bales of goods and two small ones, eight horses, a mule and three carbines. Three of the smugglers were killed, among them the well known bandit, Pedro Sales, of the Gloria rancho. Two of my men were wounded.

### THE FEEDER CANAL.

Judge McBride Alters His Injunction So that the City Can Acquire a Safe Water Supply.

Yesterday Judge John Morris, of this city, went to Albion and secured from Judge Wes. McBride a modification of his recent injunction against the city acquiring the feeder canal by condemnation.

The order is in writing and it now alone enjoins the city from purchasing or in any way securing the forty-five acre tract of land at the feeder dam.

This leaves the council free to proceed with the condemnation of the feeder canal for securing a reliable and never-failing source of water supply, only that the preliminary work of serving papers and issuing notices on the parties interested must be repeated by the council who will also be required to pass [illegible] resolutions of condemnation omitting from them the forty-five acre tract of land included in the former or first resolution and objected to by Judge McBride.

This leaves the city in a position to at last secure for the people a pure and inexhaustible water supply and to control the entire flow in the St. Joe river and feeder canal with its power, water rights and franchises at a price to be fixed by the condemnation commissioners.

### A Natural Gas Gusher.

WABASH, Ind., Oct. 11.—The natural gas well recently drilled at Amboy, eighteen miles southwest of this place, has been developed into a gusher by sinking the drill three feet. For some time past the well has at frequent intervals vomited up vast quantities of stone and salt water, shutting off the gas flow. There is now a steady flow of gas, and the pressure is very strong. Gas from this well will be piped to Peru, twelve miles distant. Preparation are being made for the formation of a pipe line company.

### The Ladies Saved the Church.

TOLONO, Ill., Oct. 11.—The Methodist Episcopal church at Monticello has long been struggling under a heavy load of debt. Last fall the church building and lot were advertised to be sold on foreclosure, but a year's extension was granted. The time being now about to expire, the ladies of the church heroically took the matter entirely into their own hands and determined to raise the incumbrance. They made a vigorous canvass for the funds, and succeeded so well that it was officially announced that the necessary $2,100 had been secured and church saved to the congregation.

### Robbed the Indians.

TUCSON, Arizona, Oct. 11—The United States grand jury, in session here, has discovered that organized cattle thieves have been stealing cattle from the Indians on the San Carlos reservation during the past year. Several very prominent citizens are implicated. The white men who stole the cattle changed the Indians brands into their own, which had been purposely made to closely resemble them. It is now thought much of the Indian troubles were due to this cattle stealing.

### THE CRITERIONS.

The Opera Company Goes to Pieces at Toledo—Mr. Aborn Skips Out.

The Criterion opera company, which recently held forth at the Academy, closed its Toledo engagement disastrously.

The public drew a sigh of relief when the curtain was rung down for the last time Saturday night, and congratulated themselves that the company would soon be without the precincts of that city.

But not so. They will stay right with them. Their baggage is safely stowed away in the Hotel Hamilton, and it will require more money than the company can show, to release it.

Saturday night Milton Aborn, one of the proprietors of the troupe, walked up to the counter in the Hamilton, and said to Mr. Martin Carter, the clerk, "Tell Walters that I'm going to Sandusky and will be back at 2 p. m." (Walters is the manager.) At the time Aborn carried a small hand satchel. That grip contained the company's money, and Aborn's whereabouts are unknown to the other members of the troupe. The remaining members of the company then appeared in traveling attire, and requested their baggage. Mr. Carter, however, refused to release it, none of the bills having been paid. Then Lew Walters, the manager, decided to leave the city, but he was placed under arrest. J. B. Bully, the musical director, is locked up for destroying property at the theatre, and the troupe will go to pieces.

# That's So

Relief is certain for the despondent feelings of the dyspeptic, the constipated habit of the sedentary, the headaches of the nervous and bilious, by the simple use of Simmons Liver Regulator,—easy to take, not nauseating or disgusting, not more bitter than a glass of beer and far more grateful. It is no intoxicating beverage, but it tones up the system, settles the stomach, assists digestion, regulates the bowels, and stimulates the Liver. Take it once and you will discard all other medicines.

"I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent that Simmons Liver Regulator has. I would advise all who are similarly afflicted to give it a trial. It seems the only thing that never fails to relieve." D. M. JANNEY, Minnesota, Minn.

The certainty with which this remedy acts has astonished the Medical Profession and secured for itself unbounded praise. Its virtues consist in being so gentle a cathartic, tonic and alterative, that in its operation it does not interrupt the usual duties of life, but acts so naturally that the system is not upset or afterwards constipated. It attacks all bilious disorders and sluggishness of the Liver; is harmless, and can be taken at any time without fear of injury.

"I have been a user of Simmons Liver Regulator for years, having made it my only family medicine. It is a sure, good and reliable medicine. My mother before me was very partial to it." Rev. Jas. M. ROLLINS, Pastor M. E. Church, Fairfield, Va.

## Pretty Legends Connected with Trees.

Near an old German castle is a lime, which a boy, accused of killing his master, planted with its head in the earth, to attest his innocence if it grew and flourished. Two friends were attacked by robbers in a wood, and one of them was killed. The robbers having been put to flight by a flash of lightning, the surviving friend, found kneeling at the side of his dead companion, was condemned to death for his murder. On his way to execution he planted a stick, which he adjured to take root and grow if he was innocent; as, of course, it is proved that he was by the beautiful apple tree that the stick became. Somewhat similar is the account of the Luther elm near Worms. A bigoted old Catholic lady, planting a stick in the ground, declared her resolution not to accept the new faith till that dry stick became green. The fact that it did so proves the interest taken by trees in the preservation of orthodoxy, but it would seem that the elm tree takes a special interest in matters of this sort, for is not the elm tree the symbol of St. Zenobius, when the coffin of that saint was carried past it a dry elm tree suddenly burst into leaf?"

Another way by which trees revealed their inherent sympathy with humanity is by bleeding. Both Virgil and Ovid tell the story of Polydore, one of the Priam's sons, intrusted to the care of a king of Thrace, and by him killed after the taking of Troy; from his grave there grew a myrtle, which, when Eneas plucked its boughs, bled in a pure human fashion, much to that hero's dismay. The present writer himself has searched for an oak tree in a Surrey wood which was said to show a blood-red sap in memory of a murder committed in its vicinity. At all events, if a deed of blood had been committed near the spot the tree in question had forgotten all about it, for no blood issued from its wound, and a disbelief in bleeding trees had to add itself to many another negative conclusion.

The peculiarities, no less than the existence, of trees, admit of mythological explanation; and strangely absurd those explanations often are. Here, for instance, is one of the jagged form of the oak leaves, an explanation of the same order as that which traces the minute holes in the leaves of the St. John's wort to the needle with which the devil pricked it as a punishment for its devil-dispelling powers. The devil agreed with a man that he should have the latter's soul at the time when the oak leaves fell; but when he came to look at the oak in the autumn he found it still in leaf, nor did it part with its old leaves till the new ones began to sprout. In his rage and disappointment he scratched the leaves so vehemently that they have been in consequence jagged ever since. — *Gentleman's Magazine.*

# DR. MANVILLE,

THE EMINENT PHYSICIAN AND SPECIALIST
Lately of London, England.

## Has Opened Medical Office Parlors at 196 Calhoun St.,

## For One Month Only, Oct. 3 to Nov. 3.

The Doctor is a graduate of three different Medical Colleges, both European and American, as his Diplomas will show, and he has been highly honored by other Colleges and Universities as well.

His Reputation is International. He has practiced nearly a quarter of a century. He treats all diseases of the Eye and Ear, all Specific, Nervous, Chronic Diseases and Deformities, of men, women and children, and the Opium and Morphine habit. Dr. Manville diagnoses diseases by an entirely different method from that pursued by ordinary physicians and specialists. He never asks a patient his disease, but by a peculiar method reads and tells every disease, complication and symptom better than the patient can; and that without asking a question. It is

### TRULY ASTONISHING!

Even physicians wonder at it and take critical cases to him for a final decision. The great question with them is: How Does He Do It? The internal parts of a patient seem to be as clear and plain to him as the exterior, but just how he obtains such a marvelous knowledge of his patient's condition, no one seems to understand, or be able to describe. That he does it in every case, no one doubts. Some seem to thing that the Doctor is gifted with supernatural powers; that no ordinary man could give such remarkable descriptions of strangers as he does. Be that as it may, this curious feature of his practice alone, is bringing him thousands of grateful patients; many of whom declare that his wonderful diagnostic skill and power in performing cures is

### Positively Miraculous

The most skeptical are convinced and astonished.

Sufferers from Nervous Debility and Blood Diseases and complaints of either sex, requiring Special Treatment, cured in a few days or weeks, without interfering with their work.

### HUNDREDS OF MEN,

are afflicted with Seminal Weakness, Spermatorrhea, and Impotency, brought on by various causes, such as venereal excesses and diseases, occupations requiring a straining and stooping position, and especially the unnatural abuses of the sexual functions, the SOLITARY HABIT so often indulged in youth without knowing the terrible results.

Young man, Stop! Look this matter square in the face; think, consider what you are doing. Waste no time and money with ignorant or unskilful pretenders, who trifle with you month after month, treating SYMPTOMS only, with Bromide of Potassium compounds that impoverish your blood, deaden your nerves; stupefy your mind and relieve nothing—but your pocket book. Such poisonous drugging

### MAKES YOU WORSE.

We can prove by hundreds of cases on record that bromide mixtures smitten given for fits and lost manhood, seldom, if ever, cure fits, but almost always DESTROY MANHOOD and RUIN the MIND. Bromide of Potassium and Gelsominum are the most remedies used. Given for seminal weakness &c., to control SYMPTOMS while you take them. They never touch the CAUSE or effect a CURE. The unhappy victim goes on from bad to worse, reaching at last the most deplorable and horrible condition of humanity imaginable: A Lost Mind—a helpless idiot or raving maniac, made so by the action of these poisons on the blood and brain, as well as by the disease. In fact, these remedies are worse even than the disease. Let Them Alone.

In all such cases we guarantee a speedy restoration to healthy, strong and vigorous manhood. Microscopical examinations of the urine made in all these cases. We make NO EXPERIMENTS HERE, only new failures. We guarantee all curable cases.

Electric Medication and the NEW METHOD TREATMENT enables us to effect WONDERFUL CURES.

### DISEASES OF WOMEN.

Every maid, wife and mother who has dragged an aching back and head through weary years, deserves our utmost sympathy, and may depend on getting the most careful, skillful and successful medical treatment that can be given. Twenty years study and practice in diseases of women, both in Europe and America, has convinced me that eight out of ten American women suffer from some of the following complaints peculiar to the sex. Irregularity of the menses, too free, too scant, or painful, leucorrhea (whites), vaginitis, metritis, endometritis, ulcerations, displacements, falling of the womb, anteversion, retroversion, latero-version, ante and retroflexions, producing constipation, or produced by it, uterine and ovarian tumors, fibroma and sarcoma cysts, cancers of the womb or its appendages, frequent or scanty urination, with burning, smarting or bloody sediments, soreness, bearing and backache, eruptions of the skin, pimples, blotches, brown spots, yellow spots, red spots, greasy, pasty, waxy, or chlorotic appearances, and discolorations of the skin, with blue or dark circles around the eyes. Nature is true; she dispenses her gifts and signals the approach of the grim enemy of life, disease. ### "Untold Agony From Catarrh."

Prof. W. HARVEY, the famous mesmerist, of [illegible], N. Y., writes: "Some ten years ago I was afflicted with a very severe chronic nasal catarrh. . . . My family physician gave me up as incurable, and said I must die. My case was indeed a sad one, for every day, towards sunset, my voice would become so hoarse I could not speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months, I was a well man, and the cure has been permanent."

### "Constantly Hawking and Spitting."

THOMAS J. RUSING, Esq., 920 Pine Street, St. Louis, Mo., writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe through the nostrils. I was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

### Three Bottles Cure Catarrh.

ELI ROBBINS, Bangor, P. O., Columbiana Co., Pa., says: "My daughter had catarrh when she was five years old, very badly. She is now eighteen years old and sound and hearty."

### FOREPAUGH'S SHOW.

**It Makes Its Bow to the People of Fort Wayne in Bad Weather.**

The combined Frontier and Forepaugh shows pulled into the city over the Wabash road, this morning, at 7 o'clock. The aggregation was in two sections and came here from Logansport.

There was the customary crowd of curious boys and roustabouts near the circus train, and it was almost 10 o'clock before the horses, animals and paraphernalia were landed on the show grounds, below the jail.

At about noon the show appeared in processional order upon the streets. Delegations of Sioux, Comanche, Kionas and Pawnee Indians, in full war paint and feathers, rode upon their wiry ponies, preceded by scouts, trappers and plainsmen. Then came a representation of an emigrant train crossing the prairies, a genuine "prairie schooner," loaded with emigrants and their paraphernalia, and drawn by mules, forming a most realistic representation of frontier life, and the veritable old Deadwood coach—the identical one that was repeatedly attacked and robbed while on its way from the Black Hills to Denver, was in the parade, drawn by six horses and driven by an old-time driver of the Overland Mail company. A cowboy brass band, mounted, headed this detachment. Then followed all the circus celebrities mounted, and the great herd of elephants, the magnificent band chariot, drawn by sixteen superb horses, and a long line of massive dens, cages and tableau cars, with bands of music at stated intervals, together with the handsome performing horses and ponies, and many other novelties never before seen in any similar display.

This afternoon the tents of the circus were crowded, in spite of the chilly weather, and a great exhibition is in progress as we go to press.

To-night the performance will be repeated and, of course, everybody will look on the glories of the ring and frontier life.

Mr. Jesse Lehr, who is familiar to most of the citizens of Fort Wayne as the veteran merchant policeman, died this morning of strangulated hernia, at his home in the Ninth ward, after an illness of twenty-four hours duration. Mr. Lehr was sixty years of age and his wife and two daughters survive him. He was at one time a prominent plasterer and had big contracts when in the business. Of late years he has been a special police officer and everybody liked him. John Lehr, the city tax collector, is his brother. The funeral occurs Thursday morning at 10 o'clock from his home, No. 67 North Ossa street. Rev. Dr. Moffat will officiate.

You may doubt it, but in fact, Sam, Pete & Max are selling a boy's heavy stylish and serviceable woolen suit for $2. Imperative law of the house is strictly one price to all. eod & wtf.
